Day in the life of:

Columbcille de Reve

Back to Articles…

Horse Details:

Name: Columbcille de Reve

Age: 2008

Competitive Height: 1.50m

Mare / Gelding: Mare

What is a normal day like for your horse? Revy gets out 3 – 4 times a day depending on her work level. She gets her turnout, treadmill workout, ridden, and then a hand graze and out for another grooming.

What do they and don't they like? She LOVES her turnout and loves other horses. She's the mama bear in the barn.

How would you describe your horse's personality? She's VERY sweet and happy go lucky on the ground. In the saddle she's all business and although she can be stubborn it usually works to her advantage!

What personality traits does your horse have that sets them apart as a competitor? She has the biggest heart and is a very tough minded mare. She wants to win just as bad as I do and you can tell in the way she goes.

What does your horse eat? How often? She eats hay 4 times per day and then also gets a grass paddock. She is fed grain 2-3 times per day depending on what time of the year she is with competitions.

What is your exercise regime to keep your horse fit? She is worked once a day under tack (usually I'm on her for 50min to an hour) with a lot of walking mixed in. She has days I pick to flat her harder and days she gets lighter. She also gets ridden twice a day when we need to start gearing up fitness. I sometimes alternate this with getting on the treadmill at an incline.

Where did you purchase your horse? She was purchased through Germaine Dougherty.

How old was she and what level were they competing at? She was 7 and had just stepped into the 1.40 and did a National Grand Prix at Vermont.
